

HOW TO GIVE EUCHARISTIC ADORATION ACCORDING TO AN EXORCIST FATHER

An exorcist priest from Canada gave a lecture explaining the importance of worshipping the Holy One at least one hour a week.

And for people who suffer from severe illnesses or have problems with some of their family members, he said that going to worship half an hour or an hour a day, not only heals; it transforms everything. It's the max. Father also said what is the best way to worship...

Example:

The first 15 minutes go before Jesus in the Eucharist, show us in front of Him and tell Him that you come to love Him and that you want to let yourself be Loved by Him.

In the next 15 minutes.

Thank him for everything:

For the life.

For the home.

For what we have to eat

For work or business

By the water we have to bathe Etc...

Many, he said, we won't be grateful anymore because we don't value what we have, but we always look at what we don't have.

After 15 minutes of repair

Repairing and delivering for our relatives who don't know him, don't love him..

Reparation for the terrible things happening in the world: Abortion, idolatry, killings, adultery, etc...

And the last 15 minutes is to place the orders

He mentioned that he gave the 15 minutes as a guide, but it doesn't necessarily have to be those times.

He also said that whoever has a disease like cancer, if they go to the Holy One to worship, they will not lose weight, no hair loss, or will feel severe pain. He said that out of an exposed Holy One comes rays of Jesus and people are healing and set free.
